*To the Inhabitants of the Town of Wilton, N. H., qualified to
vote in Town affairs :*

You are hereby notified to meet at the town hall in said town, on the 11th day of March next, at 9 of the clock in the forenoon, to act on the following subjects :

1st—To choose a Moderator to preside in said meeting.

2nd—To choose all necessary town officers for the year ensuing.

3rd—To hear the report of Selectmen and Treasurer, and other town officers or pass any vote relative thereto.

4th—To see what sum of money the town will vote to raise for state, county, town and school expenses.

5th—To see what sum of money the town will vote to raise for the repairs of highways and bridges ; support of fire department and all necessary town charges and make appropriation for the same.

6th—To see if the town will vote to repair the highways with a money tax the same as last year.

7th—To see what sum of money the town will vote to raise for repairing or renewing the waterfront wall between Joseph Langedell's stable and Chas. A. Bales' blacksmith shop or take any action thereto.

8th—To see what sum of money together with the free use of the town hall on Memorial day and evening, the town will vote to raise and appropriate for the observance of Memorial Day, May 30th 1890, to be expended by Abial A. Livermore Post 71, Dept. of N. H., G. A. R.

9th—To see what sum of money the town will vote to raise and appropriate to place the former records of the town in proper shape

for preservation, agreeable to statute law as passed June session 1885.

10th—To see if the town will appoint a committee to examine into the expediency of a gravity water service for use of the fire department, and other purposes by employing a competent expert to make surveys and to estimate the cost of the same and report at the next annual town meeting, expense for the same to be paid out of any money not otherwise appropriated.

11th—To hear and act upon the report of the Selectmen to whom was referred Daniel Mahoney's claim for town bounty of \$100 at the last annual meeting for investigation, and raise and appropriate money therefor or do anything thereon.

12th—To see if the town will vote to instruct the Selectmen to take some action relative to putting the town vault in proper condition for the preservation of the records of the town, and any expense incurred under this article to be paid for out of any money not otherwise appropriated.

13th—To see what sum of money the town will vote to raise and appropriate for the purchase of text books and supplies for pupils of the public schools as required by law.

14th—To see what sum of money the town will vote to raise and appropriate to complete fitting up the library room with furniture and fixtures or anything thereon.

15th—To see what sum of money the town will vote to raise and appropriate to buy books for the library and pay its running expenses and to determine how it should be expended.

Given under our hands and seal this 24th day of February in the year 1890.

Lula F. Richardson died Dec. 24, aged 19 years 10 months.
Charles L. Hutchinson died Dec. 30, at Lyndeboro, aged 52 years 10 months.

W. H. BARNES, Sexton.

ENGINEERS' REPORT OF FIRE DEPARTMENT.

FELLOW CITIZENS:—

Several changes have been made in the department during the year, among them there has been three instead of one on the board of Engineers. April 15th, a company with forty men was organized to take the place of the one that disbanded two years prior. Soon after Mr. Stanton kindly gave up the lease of the engine house, and the engine was placed therein at the May meeting of the company.

The alarm of fire on the 25th of April, proved to be a brush fire, damage not great. July 12th the department was called into service by the burning of the barn belonging to Mrs. Thomas Holland. The house with which it was connected was, by the aid of our citizens saved though somewhat damaged.

Some idea of the difficulty under which the department labored may be had from the fact that water was taken from five different places.

There being no company to man No. 2 engine at French Village, it is now together with the fire hooks in the basement of the town house.

The forcing pump belonging to the town has been in the charge of Mr. Theodore Barker, that together with the other apparatus are in good condition.

After the fire July 12th that part of the hose made of leather was dried in the sun on the side-walk. The hose tower nearly completed will overcome that difficulty.

The reservoir on the land of Capt. John Trevitt has been repaired and is now in good condition. The brush has been cleared away beside the river below the railroad bridge, so that water can be had in case of fire in that direction. The board realizing that the time may not be far distant when water will be taken from some of the hills which surround the village and distributed

through the streets, have not thought it best to put out much in reservoirs.

By going less than 150 rods a supply of water can be had, and, connection made with the present system.

Although to quite an expense the past year for the department we think the ~~out~~ ^{out} lays have been judicious.

“The engineers have acted in good faith in these matters, with no other object in view than for the best interest of the town and the protection of their property from fire.”

We close in the words of Robert B. Thomas:—“It is by our works and not our words we would be judged.” These we hope will sustain us in the humble though proud station we have held.

Respectfully submitted,

JOHN GAGE,	}	Engineers.

LAS CASAS BARNES, TOWN CLERK.

REPORT OF THE BOARD OF EDUCATION,

FOR THE YEAR ENDING MARCH 1, 1890.

At the annual meeting of the district held March 16, 1889, Mr. Willis H. Abbot was elected a member of the Board for the ensuing three years. In the afternoon of the same date the Board was organized by the selection of Mr. Bales as Chairman, and Mrs. Barnes as Secretary and Treasurer.

In again submitting our annual contribution to that class of literature so prevalent in March, which once read is soon forgotten, we desire to reiterate the favorable opinion which we have heretofore expressed regarding the condition of our public schools. The citizens of Wilton, we believe, are each succeeding year taking a deeper interest in educational matters and if faults exist in our school system, they are attributable to necessity rather than want of interest.

We are pleased to report that the past year has been one of more than average prosperity in our schools. We acknowledge with gratification the proficiency exhibited, by many of the pupils, in the various branches in which they were examined during our official visits. Indeed the advancement has been so satisfactory that the teachers of the town are to be congratulated upon the generally good results attending their efforts.

UNGRADED SCHOOLS.

The ungraded schools have had a successful year, their progress and present condition in most instances being eminently satisfactory. Two of this class, those on Abbot Hill, unless consolidated, suffer from lack of numbers. We cannot but believe that the union of these two schools and the location of the school building at some convenient intermediate point will prove decidedly beneficial to the scholars and more satisfactory to the patrons of both schools. While the Board have had only the best interests of both schools, at heart, we are conscious of the fact that our efforts have not met with entire approbation or indeed with that complete success, which we could have desired. The satisfactory adjustment of this matter, under present conditions we are convinced cannot be accomplished.

The *presence* of *La Grippe* caused the *absence* of many afflicted ones and in three instances the schools were closed for a time, causing a more or less serious break in the work of the Winter term. The loss of time has been compensated for by additional weeks of schooling, we trust, without detriment to the schools.

GRADED SCHOOLS.

The graded schools have had the services of the same corps of experienced teachers throughout the year. This is a subject for congratulation, as too frequent change of teachers, with their diversity of methods is often inimicable to the best interests of a school.

In making special mention of the High school, we would not be understood to under-estimate the importance of the lower

grades, or the high character of the work being accomplished in the several departments. The increased attendance in the High school, however, and the added labor in consequence, have rendered the work of Mr. Marshall exacting and laborious. We desire to attest our appreciation of his faithfulness and conscientious regard for the proper discharge of the onerous duties devolving upon him.

This school, we believe, is performing a good work and is deserving of all the aid and encouragement which can be extended. We are inclined to the opinion, however, that it may prove advantageous to the school to be more exacting in the requirements for admission. We are of the opinion that pupils should not be promoted from one grade to another except their qualifications be established by proper examinations.

GENERAL REMARKS.

In the last annual report the Board recommended that the teachers of the several schools meet from time to time for the purpose of discussing the methods of school work and the details of school government. Several such meetings have been held and we judge with very satisfactory results. We hope that they have proved of such advantage as to ensure a continuance of the plan in the future. The interchange of opinions upon topics of mutual interest cannot but be productive of benefit to the schools, in the adoption of a more uniform system of instruction.

The especial appropriation for repairs upon school buildings has been, we think, judiciously expended. The Davisville school house has been provided with new school furniture, of modern design and the school room otherwise improved. One of the school buildings at the East village has been shingled and other general repairs made, as appears in the report of the

Treasurer. We recommend that the town make a special appropriation of \$200, annually to be used as a repair fund.

Scientific apparatus of various kinds has been obtained for the High school during the year, principally from the proceeds of a lecture course held last winter. Additions in this direction and contributions of books of reference would be appreciated. Any assistance extended in this respect will be acknowledged in our next annual report. The public library will undoubtedly render a grand service to future generations at least, though strong hopes are entertained that its privileges may be shared by the present generation.

With the passage of the "free text book" law, there was enforced an additional task upon teachers and committee. While we believe the law to be excellent in its aim, it depends not a little for its success upon its judicious administration. We trust that parents will appreciate this fact and will render such assistance to those whose duty it may be to apply the law that its operation may be attended with the best possible results.

We would again remind teachers of the necessity of making their registers as complete and accurate as possible. The statistics contained therein are reported to the State Superintendent and their proper return by the teachers will be insisted upon by the Board.

TEXT BOOKS.

While changes in text books have necessarily occurred, such changes have been made with reference solely to the needs of the schools. We recognized the fact that the additional expense occasioned by the purchase of new books in many instances involved some sacrifice, and consequently the series of books in use have been superseded by others only after we were

convinced of the absolute need of the change and the great benefits accruing thereby. The principal change during the year was the re-introduction of Colburn's Mental Arithmetic. The good results from this, we believe, are already apparent.

ATTENDANCE.

The returns of the census taken in April 1889 not being quite complete we are unable to report the number of children between the ages of 5 and 15 years. However, we have reason to believe that the number will vary but slightly from the returns made the previous year, when 277 were found between those ages.

The whole number found upon the school registers, who attended school the past year, and the average daily attendance appears in the following table.

The Registers also show that there are 45 over 15 years of age.

Schools.	Whole No.	Boys.	Girls.	Av. At.	Terms.	Wks	
East {	High,	58	31	27	34	3	36
	Grammar,	43	18	25	38	3	30
	Intermed.	47	24	23	39	3	30
	Primary,	89	41	48	58	3	30
Centre,	19	10	9	10	3	30	
Davisville,	17	9	8	11	3	30

Abbot Hill,	12	5	7	7	3	28	
	318	153	164	221	27	274	

We cherish the hope that the blessings of education may continue to be recognized by our citizens and that abundant evidence of their interest in its promotion may appear in a generous appropriation for our schools.

Respectfully submitted,

GEORGE E. BALES, CHAIRMAN.

NAMES OF TEACHERS.

EAST SCHOOLS:—

High, three terms, Charles W. Marshall.

Grammar, three terms, Clara H. Blood,

Intermediate, three terms, M. Grace Blanchard.

Primary, three terms, Emma F. Robertson.

Centre school, 1st and 2nd terms, Lulie S. Blanchard.

Centre school, 3d term, Hannah J. Herlihy.

Davisville school, three terms, Bertha L. Blood.

West school, 1st and 2nd terms, Hannah J. Herlihy.

West school, 3d term, Bessie I. Tompkins.

Intervale school, 1st term, Mary B. McCollum.

Intervale school, 2nd term, Ida M. Kimball.

Intervale school, 3d term, E. G. Goldsmith.

Abbot Hill school, 1st term, Lizzie E. Wilson.

Abbot Hill school, 2nd term, Nellie E. Hobbs.

Abbot Hill school, 3d term, Pearl E. Moore.
